## **NAHU's Capitol Conference** *Agents of Change: Seizing the Opportunity*

Health insurance agents and brokers from across the country will convene in Washington, DC on February 24-26 for the National Association of Health Underwriters (NAHU) 24<sup>th</sup> Annual Capitol Conference. The theme of the meeting is "Agents of Change: Seizing the Opportunity". Forty insurance professionals from North Carolina will be in attendance.

The health insurance industry faces an ever-changing market and expanding government regulations – such as exchanges, individual mandate, essential health benefits, tax credits and penalties, and Medicaid expansion. In a bipartisan exchange, speakers will focus on topics of concern for health insurance professionals, including implementation of milestones that every agent needs to know to best help their clients in the coming year.

During NAHU's Capitol Conference, health insurance agents and brokers will have the opportunity to communicate their legislative agenda to congressional leaders. As the regulations and requirements of the health reform law continue to evolve, it is extremely important that our representatives hear our ideas and concerns.

The National Association of Health Underwriters (NAHU) represents 100,000 professional health insurance agents and brokers who provide insurance for millions of Americans. The Triad Association of Health Underwriters (TAHU) and the North Carolina Association of Health Underwriters (NCAHU) are chapters of NAHU.
